POMPOM HILLS CREATIVE INTELLIGENCE

Quality Analysis Report

Evidence-backed analysis of the saved production prompt

ANALYSIS IDENTITY

Saved run: afb1cdb0-7a28-4540-b2b1-3e441c08df47
Analysed: 2026-10-13T10:40:08.546114797Z
Settings: mode: image2video; resolution: 480p; aspectRatio: 9:16
Content: 10
Prompt version: 10
Profile: ABSURD PHYSICS
Generator: SEEDANCE 2 0 MINI
Duration: 15 · Aspect ratio: 9:16
Ruleset: 1.7
Source: content:10/prompt:10
Prompt SHA256: 0fe229774deb4b31a42145bad91cf10c91634ba00da39fa3e9d288b3a2e7bd98

QUALITY SCORE

85.0 / 100

Grade: B

Export: 2026-10-13 11:28 UTC

Executive Summary

ANALYSIS	CREATIVE	RENDER AUTH	RECOMMENDATION
COMPLETED	HYPOTHESIS	BLOCKED TECHNICAL FAILURE	PROCEED NEXT EVIDENCE STEP

This report uses the saved Step 5 analysis. It does not call any provider or rerun evaluation.

Canonical Rule Engine Report

Ruleset: 1.7 · Score: 85.0/100 · Grade: B · Status: EVALUATED · Rules evaluated: 8

PASS	FAIL	UNKNOWN	NOT APPLICABLE	EVALUATED
4	0	1	3	8

Individual Rule Outcomes

Rule ID	Family	Outcome	Severity	Evidence
MINI_STORY_LOCK	concept strength	PASS	BLOCKER	Readable mini-story arc: goal, obstruction, attempts, progression, realization and payoff are evidenced.
GOAL_VISIBLE_EARLY	hook strength	PASS	CRITICAL	The character goal is available in the opening window.
TEMPORAL_COMPLEXITY_SPLIT_GATE	generation executability	PASS	BLOCKER	Temporal load is manageable for the selected generation plan.
BEAT_DENSITY_RULE	progression	PASS	CRITICAL	5 canonical major beats fit the 15-second plan.
STUBBORN_RETURN_LOOP	progression	UNKNOWN	BLOCKER	Return-loop candidate lacks one or more mandatory signals.

Rule ID	Family	Outcome	Severity	Evidence
CONTINUATION_LOCK	generation executability	NOT APPLICABLE	BLOCKER	Continuation lock applies only to SPLIT 2X15S plans.
STUBBORN_RETURN_HOOK	hook strength	NOT APPLICABLE	CRITICAL	Stubborn-return hook exception applies only when the engine profile is explicitly or high-confidence active.
STUBBORN_RETURN_PAYOFF	final payoff	NOT APPLICABLE	CRITICAL	Stubborn-return payoff exception is not active.

Video Plan IR

Character: UNKNOWN
Principal object: UNKNOWN
Physical mechanic: trigger: CONTACT_OR_THROW; recurrence: true; causeEffect: Action-based consequence; consistency: UNKNOWN; persistence: PERSISTS_AFTER_CONTACT; physicalRule: Inferred from beat actions; mechanicCount: UNKNOWN; primaryObject: UNKNOWN; mechanicCarrier: UNKNOWN; abnormalProperty: STICKS_TO_SURFACES; releaseCondition: FORCE_OR_SELF_RELEASE; causalParticipants: UNKNOWN
Goal evidence: source: EXPLICIT_TEXT; goalType: RETRIEVE_OR_CONTROL_OBJECT; description: peel the stuck note away with her other hand; the note splits into two [medium shot of Mimi struggling] Mimi pulls at the note -> one note sticks to each hand; obstruction: Inferred from beat actions; targetObject: UNKNOWN; intendedEffect: restore_or_control_normal_object_use; goalExplicitness: EXPLICIT
Recurrence: true

Timed Beats (5)

Time	Actor	Action	Object	Consequence
0.0-2.0	UNKNOWN	0-2s: Mimi reaches toward the toy cabinet with a sticky note; instead of sticking to the cabinet, the note visibly clings to her finger [close-up on Mimi's hand] Mimi is in front of a toy cabinet, looking determined -> the note sticks to Mimi, not the cabinet	UNKNOWN	the note sticks to Mimi, not the cabinet
2.0-5.0	UNKNOWN	2-5s: Mimi tries to peel the stuck note away with her other hand; the note splits into two [medium shot of Mimi struggling] Mimi pulls at the note -> one note sticks to each hand	UNKNOWN	one note sticks to each hand
5.0-10.0	UNKNOWN	5-10s: Mimi continues to pull; each pull doubles the number of sticky notes [wide shot showing Mimi covered in notes] notes multiply from two to four to eight as she pulls, progressively covering her arms, legs and face -> Mimi is overwhelmed by notes	UNKNOWN	Mimi is overwhelmed by notes
10.0-12.0	UNKNOWN	10-12s: Mimi sees herself in a mirror and screams [close-up on Mimi's shocked face] Mimi is startled by her reflection completely covered in notes -> Mimi is startled	UNKNOWN	Mimi is startled
12.0-15.0	UNKNOWN	12-15s: Mimi sneezes and the sticky notes fly off [medium shot of notes flying] notes scatter and stick to the cabinet -> Mimi breathes a sigh of relief but the cabinet remains messy	UNKNOWN	Mimi breathes a sigh of relief but the cabinet remains messy

Creative Quality Assessment

Dimension	Status	Explanation
Opening / first-frame hook	UNKNOWN	Mimi reaches toward the toy cabinet with a sticky note; instead of sticking to the cabinet, the note visibly clings to her finger [close-up on Mimi's hand] Mimi is in front of a toy cabinet, looking determined -> the note sticks to Mimi, not the cabinet
Beat progression	UNKNOWN	Insufficient evidence from text alone; planned beats exist but meaningful progression quality is unverified.
Ending / payoff	UNKNOWN	Mimi sneezes and the sticky notes fly off [medium shot of notes flying] notes scatter and stick to the cabinet -> Mimi breathes a sigh of relief but the cabinet remains messy
Physical rule consistency	UNKNOWN	Independent semantic and rendered physical consistency are UNKNOWN; inspect the saved IR above.
Action variety	UNKNOWN	Distinct action variety is not independently verified by this export.

Local Execution Critic

Dimension	Status	Explanation
Plan quality	HYPOTHESIS	Text-based plan assessment; no image evidence.
Local execution check	PASS	PASS means no local text findings were recorded; actual generator success is UNKNOWN.
Production complexity	RISKY	Text-based producibility assessment; actual render success remains UNKNOWN.

Generator capability: SUPPORTED - schema snapshot openart-cli-schema-2026-10-08

Evidence & Source Traceability

Source identity: sha256: 0fe229774deb4b31a42145bad91cf10c91634ba00da39fa3e9d288b3a2e7bd98; version: 10; artifact: content:10/prompt:10

Production evidence provenance: source: POST_FAMILY_SOURCE_ENRICHMENT; sourceHash: 0fe229774deb4b31a42145bad91cf10c91634ba00da39fa3e9d288b3a2e7bd98; sourceVersion: 10; extractionVersion: source-span-production-evidence-v1

Independent semantic fidelity: UNKNOWN. Source ancestry and quote correspondence do not establish semantic approval. Rendered fidelity requires Video QA.

Legacy provider traceability is separate. No approved-story linkage or sentence mapping is inferred by this export when absent from the saved run.

Remaining uncertainty: fineMotorRequirement; objectContinuity; characterContinuity; occlusionRequirement; exactCountDependency; simulationRequirement; sceneContinuityRequirement; textRequirement; segmentContinuityRequirement; trackedPlan

Recorded validation diagnostic: field: trackedPlan; state: CONTRADICTORY; reason: Plan spans do not match the source.; sourceHash: 0fe229774deb4b31a42145bad91cf10c91634ba00da39fa3e9d288b3a2e7bd98; methodVersion: source-span-production-evidence-v1

Saved input-contract mismatch: deterministic events were supplied to a validator expecting source-bound beats. Recorded technical failure remains blocking. Runtime exception details and independently conflicting source spans were not saved; contradiction evidence is UNKNOWN.

Creative evidence limitations: Source interpretations are planned experience, never actual frame evidence or predicted views.; Motion, repetition, holds and different verbs alone do not establish progression.

F8 Render Authorization

Status: BLOCKED TECHNICAL FAILURE

Authorization Reasons

Code	Source	Recorded message / evidence
REQUIRED_EVIDENCE_MISSING	REFERENCE_ASSOCIATION	An authoritative character/object reference is missing or unverified. - references: None recorded
REQUIRED_EVIDENCE_MISSING	EXECUTION_INPUTS	Required provider execution inputs are missing: startFrame - references: None recorded
ASSESSMENT_TECHNICAL_FAILURE	SOURCE_INTEGRITY	Contradictory source evidence. - references: None recorded

Saved input-contract mismatch: deterministic events were supplied to a validator expecting source-bound beats. Recorded technical failure remains blocking. Runtime exception details and independently conflicting source spans were not saved; contradiction evidence is UNKNOWN.

Render authorization is not granted by this report. Explicit user approval remains mandatory.

Findings Resolution

Plan findings: None recorded
Local execution findings: None recorded
REQUIRED_EVIDENCE_MISSING / REFERENCE_ASSOCIATION: Select and bind a verified canonical character reference in Step 7.
REQUIRED_EVIDENCE_MISSING / EXECUTION_INPUTS: Prepare and accept a first frame in Step 7; generation is separately opt-in.
ASSESSMENT_TECHNICAL_FAILURE / SOURCE_INTEGRITY: Inspect the saved validation diagnostic and input contract. No story change is justified by this failure alone.

Conclusions & Next Action

This export preserves run afb1cdb0-7a28-4540-b2b1-3e441c08df47. It does not rerun analysis, change the canonical score, or authorize render.
Canonical outcomes and source intervals above are the recorded evidence. Independent story fidelity and actual rendered quality remain UNKNOWN.
Resolve the recorded technical diagnostic, supply missing references and execution inputs, then independently revalidate the exact saved request. Explicit authorization is still required for rendering.
