POMPOM HILLS CREATIVE INTELLIGENCE

Quality Analysis Report

Evidence-backed analysis of the saved production prompt

ANALYSIS IDENTITY

Saved run: afb1cdb0-7a28-4540-b2b1-3e441c08df47
Analysed: 2026-10-13T10:40:08.546114797Z
Settings: mode: image2video; resolution: 480p; aspectRatio: 9:16
Content: 10
Prompt version: 10
Profile: ABSURD PHYSICS
Generator: SEEDANCE 2 0 MINI
Duration: 15 · Aspect ratio: 9:16
Ruleset: 1.7
Source: content:10/prompt:10
Prompt SHA256: 0fe229774deb4b31a42145bad91cf10c91634ba00da39fa3e9d288b3a2e7bd98

QUALITY SCORE

85.0 / 100

Grade: B

Export: 2026-10-13 12:49 UTC

Executive Summary

ANALYSIS	CREATIVE	RENDER AUTH	RECOMMENDATION
COMPLETED	HYPOTHESIS	BLOCKED TECHNICAL FAILURE	PROCEED NEXT EVIDENCE STEP

This report uses the saved Step 5 analysis. It does not call any provider or rerun evaluation.

Canonical Rule Engine Report

Ruleset: 1.7 · Score: 85.0/100 · Grade: B · Status: EVALUATED · Rules evaluated: 8

PASS	FAIL	UNKNOWN	NOT APPLICABLE	EVALUATED
4	0	1	3	8

Individual Rule Outcomes

Outcome	Rule / recorded evidence
PASS	**MINI_STORY_LOCK** Family: concept strength | Configured severity: BLOCKER Readable mini-story arc: goal, obstruction, attempts, progression, realization and payoff are evidenced.
PASS	**GOAL_VISIBLE_EARLY** Family: hook strength | Configured severity: CRITICAL The character goal is available in the opening window.

Outcome	Rule / recorded evidence
PASS	**TEMPORAL_COMPLEXITY_SPLIT_GATE** Family: generation executability | Configured severity: BLOCKER Temporal load is manageable for the selected generation plan.
PASS	**BEAT_DENSITY_RULE** Family: progression | Configured severity: CRITICAL 5 canonical major beats fit the 15-second plan.
UNKNOWN	**STUBBORN_RETURN_LOOP** Family: progression | Configured severity: BLOCKER Return-loop candidate lacks one or more mandatory signals.
NOT APPLICABLE	**CONTINUATION_LOCK** Family: generation executability | Configured severity: BLOCKER Continuation lock applies only to SPLIT 2X15S plans.
NOT APPLICABLE	**STUBBORN_RETURN_HOOK** Family: hook strength | Configured severity: CRITICAL Stubborn-return hook exception applies only when the engine profile is explicitly or high-confidence active.
NOT APPLICABLE	**STUBBORN_RETURN_PAYOFF** Family: final payoff | Configured severity: CRITICAL Stubborn-return payoff exception is not active.

Video Plan IR

Read-only source extraction - not revalidation

Extraction identity: source-plan-display-v1:db57cf4e23c78b67978560fc4009b094fbe6dd89e5b6640648fd3cd5117fe72b

Parent saved run: afb1cdb0-7a28-4540-b2b1-3e441c08df47

Current parser fields are supplemental textual evidence. Historical IR, canonical score/grade and F8 remain unchanged. Independent semantic validation NOT_PERFORMED; authorization NOT_EVALUATED.

Character: Mimi | OBSERVED

Principal object: sticky note | OBSERVED

Source entity provenance

mainCharacter	value: Mimi; state: OBSERVED; sourceSpan: 15; 19; sourceQuote: Mimi; method: DETERMINISTIC_SOURCE_PATTERN; semanticVerification: NOT_PERFORMED; reason: Exact source mention.
principalObject	value: sticky note; state: OBSERVED; sourceSpan: 288; 299; sourceQuote: sticky note; method: DETERMINISTIC_SOURCE_PATTERN; semanticVerification: NOT_PERFORMED; reason: Exact source mention.

Historical canonical character/object fields: UNKNOWN / UNKNOWN

Recorded physical mechanic: trigger: CONTACT_OR_THROW; recurrence: true; causeEffect: Action-based consequence; consistency: UNKNOWN; persistence: PERSISTS_AFTER_CONTACT; physicalRule: Inferred from beat actions; mechanicCount: UNKNOWN; primaryObject: UNKNOWN; mechanicCarrier: UNKNOWN; abnormalProperty: STICKS_TO_SURFACES; releaseCondition: FORCE_OR_SELF_RELEASE; causalParticipants: UNKNOWN

Recorded goal evidence: source: EXPLICIT_TEXT; goalType: RETRIEVE_OR_CONTROL_OBJECT; description: peel the stuck note away with her other hand; the note splits into two [medium shot of Mimi struggling] Mimi pulls at the note -> one note sticks to each hand; obstruction: Inferred from beat actions; targetObject: UNKNOWN; intendedEffect: restore_or_control_normal_object_use; goalExplicitness: EXPLICIT
Recurrence: true

Timed Beats (5)

Time	Actor / object	Action / consequence / source evidence
0.0-2.0 s	**Actor: Mimi** Object: sticky note actor: OBSERVED Quote: Mimi | span 245; 249 primaryObject: OBSERVED Quote: sticky note | span 288; 299	**Action** Mimi reaches toward the toy cabinet with a sticky note; instead of sticking to the cabinet, the note visibly clings to her finger **Consequence** the note sticks to Mimi, not the cabinet Source span: 239; 498 | TEXT_MATCHED
2.0-5.0 s	**Actor: Mimi** Object: note actor: OBSERVED Quote: Mimi | span 505; 509 primaryObject: INFERRED Quote: note | span 534; 538	**Action** Mimi tries to peel the stuck note away with her other hand; the note splits into two **Consequence** one note sticks to each hand Source span: 499; 677 | TEXT_MATCHED Head noun corresponds to the source-introduced object; continuity is not independently verified.
5.0-10.0 s	**Actor: Mimi** Object: sticky notes actor: OBSERVED Quote: Mimi | span 685; 689 primaryObject: OBSERVED Quote: sticky notes | span 741; 753	**Action** Mimi continues to pull; each pull doubles the number of sticky notes **Consequence** Mimi is overwhelmed by notes Source span: 678; 929 | TEXT_MATCHED
10.0-12.0 s	**Actor: Mimi** Object: notes actor: OBSERVED Quote: Mimi | span 938; 942 primaryObject: INFERRED Quote: notes | span 1071; 1076	**Action** Mimi sees herself in a mirror and screams **Consequence** Mimi is startled Source span: 930; 1096 | TEXT_MATCHED Head noun corresponds to the source-introduced object; continuity is not independently verified.

Time	Actor / object	Action / consequence / source evidence
12.0-15.0 s	**Actor: Mimi** Object: sticky notes actor: OBSERVED Quote: Mimi | span 1105; 1109 primaryObject: OBSERVED Quote: sticky notes | span 1126; 1138	**Action** Mimi sneezes and the sticky notes fly off **Consequence** Mimi breathes a sigh of relief but the cabinet remains messy Source span: 1097; 1279 | TEXT_MATCHED

Creative Quality Assessment

Dimension	Recorded status	Explanation
Opening / first-frame hook	UNKNOWN	Mimi reaches toward the toy cabinet with a sticky note; instead of sticking to the cabinet, the note visibly clings to her finger [close-up on Mimi's hand] Mimi is in front of a toy cabinet, looking determined -> the note sticks to Mimi, not the cabinet
Beat progression	UNKNOWN	Insufficient evidence from text alone; planned beats exist but meaningful progression quality is unverified.
Ending / payoff	UNKNOWN	Mimi sneezes and the sticky notes fly off [medium shot of notes flying] notes scatter and stick to the cabinet -> Mimi breathes a sigh of relief but the cabinet remains messy
Physical rule consistency	UNKNOWN	Independent semantic and rendered physical consistency are UNKNOWN; inspect the saved IR above.
Action variety	UNKNOWN	Distinct action variety is not independently verified by this export.

Local Execution Critic

Dimension	Recorded status	Explanation
Plan quality	HYPOTHESIS	Text-based plan assessment; no image evidence.
Local execution check	PASS	PASS means no local text findings were recorded; actual generator success is UNKNOWN.
Production complexity	RISKY	Text-based producibility assessment; actual render success remains UNKNOWN.

Generator capability: SUPPORTED - schema snapshot openart-cli-schema-2026-10-08

Capability provenance

source	CONNECTED_OPENART_MODEL_FORM
command	openart model form byte-plus-seedance-2-mini image2video --json --no-input
cliVersion	0.1.1 (commit 85fa0ad; built 2026-08-31)
schemaSha256	e5458973228db9a1a6fd2185322e98e4f33595496e8c12cf9f22d69206ea1b94
verifiedDate	2026-10-08

liveGenerationVerified	false

Execution findings: None recorded
Execution limitations: General writing heuristics; not evidence of the selected model’s actual performance.
Material producibility risks: CONTACT_PHYSICS_COMPLEXITY; TRANSFORMATION_COMPLEXITY; SPATIAL_RELATIONSHIP_COMPLEXITY

Material dimension	Level	Recorded reason / references
CONTACT PHYSICS COMPLEXITY	HIGH	0-2s: Mimi reaches toward the toy cabinet with a sticky note; instead of sticking to the cabinet, the note visibly clings to her finger [close-up on Mimi's hand] Mimi is in front of a toy cabinet, looking determined -> the note sticks to Mimi, not the cabinet; 2-5s: Mimi tries to peel the stuck note away with her other hand; the note splits into two [medium shot of Mimi struggling] Mimi pulls at the note -> one note sticks to each hand - references: contactPhysicsRequirement; content:10/prompt:10#chars=1097-1279; content:10/prompt:10#chars=239-498; content:10/prompt:10#chars=499-677
TRANSFORMATION COMPLEXITY	MODERATE	Mimi, an anthropomorphic bunny, interacts with sticky notes in a humorous and chaotic manner; 2-5s: Mimi tries to peel the stuck note away with her other hand; the note splits into two [medium shot of Mimi struggling] Mimi pulls at the note -> one note sticks to each hand - references: transformationRequirement; content:10/prompt:10#chars=128-220; content:10/prompt:10#chars=1506-1561; content:10/prompt:10#chars=499-677
SPATIAL RELATIONSHIP COMPLEXITY	HIGH	10-12s: Mimi sees herself in a mirror and screams [close-up on Mimi's shocked face] Mimi is startled by her reflection completely covered in notes -> Mimi is startled - references: spatialRequirement; content:10/prompt:10#chars=930-1096

Unknown dimensions: ENTITY_LOAD; OBJECT_IDENTITY_CONTINUITY; CHARACTER_IDENTITY_CONTINUITY; FINE_MOTOR_PRECISION; OCCLUSION_HIDDEN_STATE; EXACT_COUNT_DEPENDENCY; MULTI_ENTITY_CONCURRENCY; LIQUID_CLOTH_PARTICLE; CAMERA_ACTION_COUPLING; MULTI_SCENE_CONTINUITY; TEXT_LIP_SYNC_SYMBOL; SEGMENT_CONTINUITY
Duration load: level: UNKNOWN; reason: Timed, independently tracked action evidence is incomplete.; material: false; changesPerSecond: UNKNOWN; requiresRedesign: false; evidenceReferences: None recorded; dependentStateChanges: 0

Evidence & Source Traceability

Source identity: sha256: 0fe229774deb4b31a42145bad91cf10c91634ba00da39fa3e9d288b3a2e7bd98; version: 10; artifact: content:10/prompt:10

Production evidence provenance

source	POST_FAMILY_SOURCE_ENRICHMENT
sourceHash	0fe229774deb4b31a42145bad91cf10c91634ba00da39fa3e9d288b3a2e7bd98
sourceVersion	10
extractionVersion	source-span-production-evidence-v1

Independent semantic fidelity: UNKNOWN. Source ancestry and quote correspondence do not establish semantic approval. Rendered fidelity requires Video QA.
Legacy provider traceability is separate. No approved-story linkage or sentence mapping is inferred by this export when absent from the saved run.
Remaining uncertainty: fineMotorRequirement; objectContinuity; characterContinuity; occlusionRequirement; exactCountDependency; simulationRequirement; sceneContinuityRequirement; textRequirement; segmentContinuityRequirement; trackedPlan

Recorded validation diagnostic: field: trackedPlan; state: CONTRADICTORY; reason: Plan spans do not match the source.; sourceHash: 0fe229774deb4b31a42145bad91cf10c91634ba00da39fa3e9d288b3a2e7bd98; methodVersion: source-span-production-evidence-v1

Saved input-contract mismatch: deterministic events were supplied to a validator expecting source-bound beats. Recorded technical failure remains blocking. Runtime exception details and independently conflicting source spans were not saved; contradiction evidence is UNKNOWN.

Creative evidence limitations: Source interpretations are planned experience, never actual frame evidence or predicted views.; Motion, repetition, holds and different verbs alone do not establish progression.

F8 Render Authorization

Status: BLOCKED TECHNICAL FAILURE

Authorization Reasons

Code	Source	Historical message / evidence (not independently verified)
REQUIRED_EVIDENCE_MISSING	REFERENCE_ASSOCIATION	An authoritative character/object reference is missing or unverified. - references: None recorded
REQUIRED_EVIDENCE_MISSING	EXECUTION_INPUTS	Required provider execution inputs are missing: startFrame - references: None recorded
ASSESSMENT_TECHNICAL_FAILURE	SOURCE_INTEGRITY	Contradictory source evidence. - references: None recorded

Saved input-contract mismatch: deterministic events were supplied to a validator expecting source-bound beats. Recorded technical failure remains blocking. Runtime exception details and independently conflicting source spans were not saved; contradiction evidence is UNKNOWN.

Render authorization is not granted by this report. Explicit user approval remains mandatory.

Findings Resolution

Plan findings: None recorded

Local execution findings: None recorded

REQUIRED_EVIDENCE_MISSING / REFERENCE_ASSOCIATION: Select and bind a verified canonical character reference in Step 7.

REQUIRED_EVIDENCE_MISSING / EXECUTION_INPUTS: Prepare and accept a first frame in Step 7; generation is separately opt-in.

ASSESSMENT_TECHNICAL_FAILURE / SOURCE_INTEGRITY: Inspect the saved validation diagnostic and input contract. No story change is justified by this failure alone.

Conclusions & Next Action

This export preserves run afb1cdb0-7a28-4540-b2b1-3e441c08df47. It does not rerun analysis, change the canonical score, or authorize render.

Canonical outcomes and source intervals above are the recorded evidence. Independent story fidelity and actual rendered quality remain UNKNOWN.

Resolve the recorded technical diagnostic, supply missing references and execution inputs, then independently revalidate the exact saved request. Explicit authorization is still required for rendering.
